SEPICALM™ S WP, a “blissful” soother, provides a comfortable skin feel.

(Sodium Cocoyl Amino Acids - Sarcosine - Magnesium Aspartate - Potassium Aspartate)

Aminoacids biovector enriched with mineral salts ; **Happiness Soother for sensitive skin**. It **protects** the skin **from any type of internal or external stresses** (such as inflammation, UV rays, abrasions...) while exalting it by a **real sensation of well being & comfort**.

AQUAXYL™ moisturizes & restructures the skin.

(Xylitylglucoside - Anhydroxylitol - Xylitol)

Moisturizes & restructures the skin by harmonizing its hydric flow (boosted water reserves, improved water circulation in all skin layers, reduced water loss ; *in vitro* & *in vivo* proven). Moreover, it improves the foam quality & **reduces irritation** induced some surfactants (LESNa...). Mechanism of action validated by **cosmetogenomics**.

SEPIMAX ZEN™ can suspend small beads in this aqueous gel formulation.
