With WESOURCE

Light pink emulsion / Challenge test: Criteria A / **Packaging: Spray**

pH: 5.1 / **VISCOITIES:** **1M** at RT: 14 400 mPa.s Brookfield LV4-6 /

Recovery at RT (after 1M at 45°C): 14 000 mPa.s Brookfield LV4-6.

STABILITY: M1 at RT, 45°C, cycles -5°C/+40°C.

FORMULATION ADVICES / Laboratory scale - 200g - Silverson rotor-stator

Heat phase B to 75°C. Add phase C then phase A at 75°C. Emulsify for 4 minutes at 4000rpm (Silverson). Cool down for 10 minutes at 100rpm with anchor. Add phase D, homogenize 1 minute at 400 rpm (Silverson). Cool down an additional 10 minutes at 100rpm with anchor in a cold water bath.

This nomadic mist enhances the complexion and surprises by its transformation texture : the thick mist becomes liquid during the application.

MONTANOV™ L is a glucolipid emulsifier well-suited to formulate **different textures including sprays.**

(C14-22 Alcohols and C12-20 Alkyl Glucoside)

It provides a **light texture** and an **uniforme coverage** to the mist. It has a **strong moisturizing power** since it promotes liquid crystals which prevent the skin from dehydration.

SEPIMAX ZEN™ thickens, stabilizes and texturizes the mist. It imparts rich, velvet and elegant skin feel to this mist.

(Polyacrylate Crosspolymer-6)

EMOGREEN™ L15 and **EMOGREEN™ L19** are non polar emollients. They give a **lightweight, fresh and non-greasy skin feel**, when applying the mist and a **powdery and soft finish.**

(C15-19 Alkane* (*Plant-based & Renewable))

SEPITONIC™ M3.0 boosts oxygenation and efficacy of the other active ingredient in the formula. It's a cell chrono-energizing and anti-free radical agent. Into this mist **SEPITONIC™ M3.0** gives to the skin a **youthful look** and **protects against stress and pollution.** (Magnesium Aspartate and Zinc Gluconate and Copper Gluconate)

TALADVANCE™ provides a **flash & long-lasting radiance** for a perfect complexion after only 30 minutes!

(Glycerin - Aqua/Water - Centella Asiatica Leaf Extract)

Centella asiatica extract. It regulates the cellular cycle in the epidermis, increases fibroblast functionality and protects the dermis.

ADDITIONAL INGREDIENTS: Benzyl Alcohol, Benzoic Acid, Dehydroacetic Acid, Tocopherol - EUXYL K903 (SCHÜLKE AND MAYR) / Colorant C.I.14720 - ROUGE RUBIS W3004 (SENSIENT LCW) / Fragrance Just Delicious (TECHNICO FLOR)

A formula related to **MILLENIALS** concept.
