**Green cream gel/ Packaging: Pump or Tube**

**pH: 5.2 / VISCOSITIES: 7D at RT: 45500cps (M4V6)**

**VISCOSITIES: 1M at RT: 48700cps (M4V6)**

**STABILITY: 3M at RT, 45°C, 3F/T cycles -5°C/+40°C.**

**FORMULATION ADVICES: 200 g - Rayneri with defloculator**

Disperse the polymer of phase B in the water of phase A and homogenize under a defloculator from 700 rpm to 1000 rpm. Prepare phase C then introduce it into phase A progressively under stirring. Shake for 10 minutes at 1500 rpm. Introduce the ingredients of phase D one by one and homogenize between each addition. Add the dyes and homogenize.

COLD  
PROCESS

Enjoy the transformative texture of this light daily serum for a perfect skin complexion.

*Take time to relax !*

A glossy cream gel with **SEPI NOV™ WEO** with a quick-break effect (*Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer*) A **pre-neutralized powder polymeric thickener**, working on a wide pH range (3-12). It also provides excellent **oil stabilizing property** even in presence of a high percentage of oily phase. It imparts a satiny and fresh skin feel.

A soft and dry after skin feel with **EMOGREEN™ L19!** (*C15-19 Alkane (Plant-based & Renewable)*) is a non-polar and biodegradable, bio-sourced emollient. It's **THE alternative to silicone oils**. This high purity vegetable alkane is conformed to Cosmos and Natrue. It gives a **fresh and gliding touch**, with a soft afterfeel. Inert and stable.

**ORAMIX™ CG110** as a mild solubilizing agent (*Caprylyl / Capryl Glucoside*)

**Non-ionic surfactant** from vegetable origin. **Allows solubilizing lipophilic components** (fragrances, essential oils, preservatives...).

A duo of actives for a beautiful skin:

**CERAMOSIDES™HP** (*Glycosphingolipids & Glycolipids*):

The **essence of perfect skin**. CERAMOSIDES™ HP are an **original combination** (patented) of **natural CERAMIDES** and **OMEGAS** which **protect the skin** from the **loss of elasticity**, one of the primary causes of enlarged pores with age.

**HYDRACHRYSUM™** (*Aqua/Water - Glycerin - Helichrysum stoechas Callus Culture Lysate*) : **Bio-inspired**, developed using our **Cellosomes eco-design technology** **Hydrachrysum ensures an intense and long term moisturization**. It induces a **decrease of pro-inflammatory** and an **increase of pro-resolutive mediators** to allow a return to homeostasis and **improved barrier function**.

**ADDITIONAL INGREDIENTS:** Moringa Oleifera Seed Oil; MORINGA OIL (Bertin) / Dehydroacetic Acid/Benzyl Alcohol; GEOGARD 22 (Longo) / Perfume Reggae 2143103 (Expressions Parfumées)
